ERRATUM

Open Access

Erratum to: SWITCH: a dynamic CRISPR tool for genome engineering and metabolic pathway control for cell factory construction in *Saccharomyces cerevisiae*

Katherina García Vanegas¹, Beata Joanna Lehka² and Uffe Hasbro Mortensen^{1*}

Erratum to: *Microb Cell Fact* (2017) 16:25 DOI 10.1186/s12934-017-0632-x

Upon publication of this article [1], it was brought to our attention that Figure 3 contained the following errors:

1. The figure shows the pathway towards Naringenin in which a single hydroxyl group is positioned incorrectly in Naringenin chalcone, Naringenin and Phloretin, because the bond connecting the right side ring system was accidentally placed towards carbon number 6 instead of carbon number 1.

2. In addition, the structures of Cinnamic acid and maric acid are shown as their corresponding bases.

The above errors do not influence the science and conclusions presented in the article [1].
